

Free Bike Repair Day For Your Site!

Who **Safe Routes to Schools & Cycles of Change**

What

A free bike repair clinic for youth, parents, and site staff. Our mechanics can fix almost any major repair issue. We also teach maintenance, safety, and fun ways to decorate your ride.

Why

You'd be surprised how many youth don't ride just because they have a flat tire and how many youth are riding unsafe bikes! More bike riding means more exercise, less traffic, and fewer greenhouse gases!

Where

In front of your site, by the bike rack, or inside if it's raining.

When

Anytime Mon-Sat for 2-4 hrs. We compliment existing events, too.

How

All your site needs to do to make this a success is:

- 1) Fill out the application and send it in.
- 2) Outreach using flyers and announcements we provide.
- 3) Keep a sign-up sheet in the office. Minimum of 6 students with bikes required.
